Description

Navy Dress Made to measure.

Before production can commence we require the individual's measurements. This item is only refundable if there is a problem with the manufacturing of the garment. It is your responsibility to provide the correct information.

The measurements required for production are:-

1. Bust cm

(Measure around the fullest part of the bust right around the back, full circle)

2. Waist cm

(Take a Fairly loose and comfortable measurement around the natural waist full circle)

3. Hip cm

(Take a Fairly loose and comfortable measurement 10 cm lower than your waist measurement, full circle)

4. Widest Hip cm

(Take this measurement 20cm lower than your waist measurement, full circle)

5. Across Shoulder cm

(Measure from one shoulder point to the other, extend the tape measure straight across your shoulder across your back)

6. Sleeve Length cm

(Measure from the top of your arm cap to your wrist)

7. Length cm

(Measure from the centre of your neck (nape) to the desired skirt length which is 4 cm below the bottom of the kneecap)
